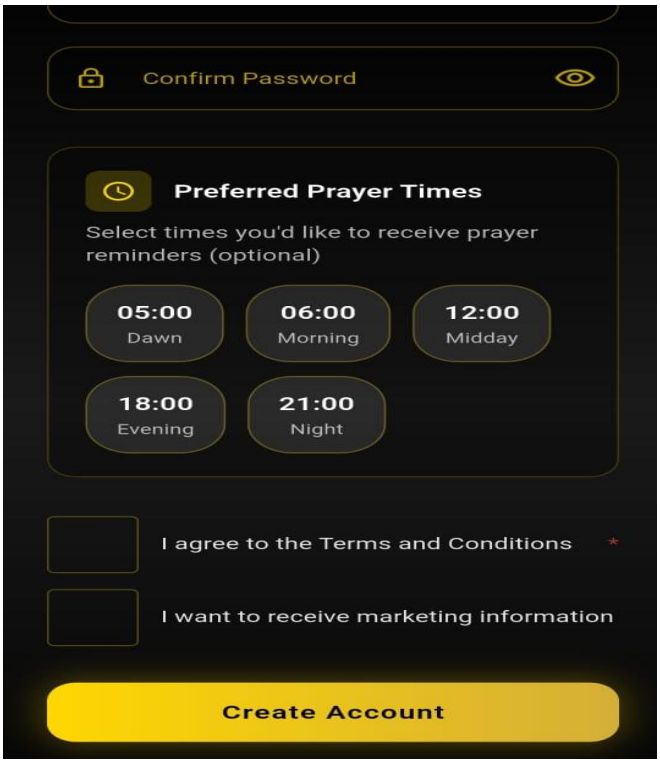
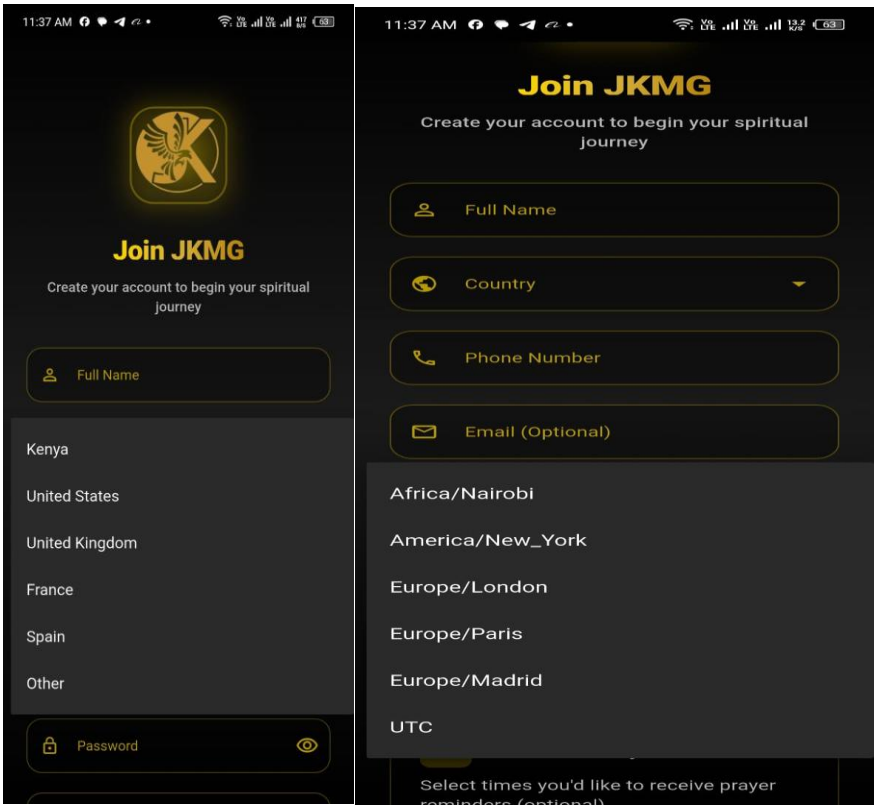
Update for the app **SIGN IN/SIGN UP & FORGOT PASSWORD**

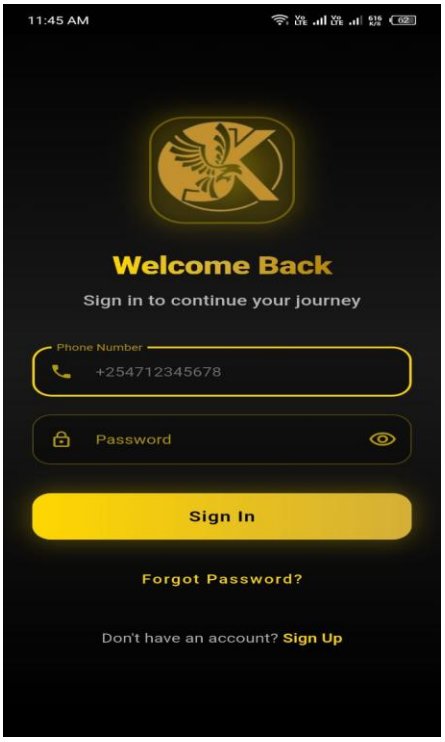
1- **I noticed once u sign in and u try to go back on the home page of the app, the app signs u out automatically, you'll require to sign in again, can users stay signed in all through the moment they sign in.**
2- **Forgot password is not functional, I tried using it and it said an email has been sent but I am yet to receive the email with link for changing password**
3- **On the signup page, everything is perfect but the area for Preferred prayer time kindly change to Prayer time because the prayer time would be general for all users which is going to be 6 hours interval, 6am, 12 pm and 6 pm then deep in prayer which is 12 midnight.**



4- **Also on the sign up page kindly fix the option for country I see we have limited options and also the area for time zones we have about 24 time zones, can we have a comprehensive option on both kindly.**



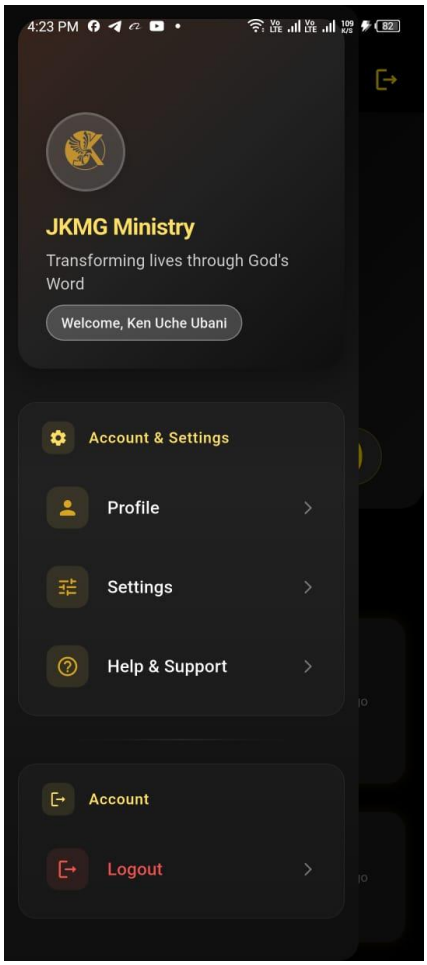
5- Also pls on the sign in page can we have options for email and mobile number to sign in and not just mobile number alone.



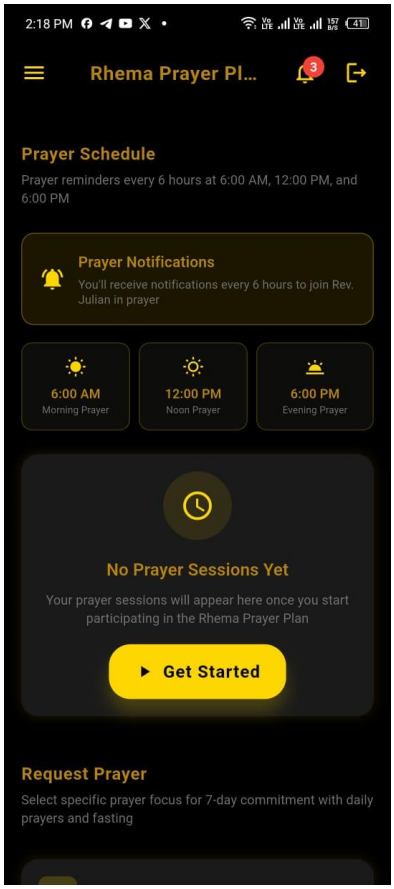
RHEMA PRAYER PLAN

6- **Kindly consider adding this function to the app, a situation a user misses any of the prayer time which is the prerecorded voice of Rev Julian Kyula, the prayer should be saved in the users notification or inbox area for 24 hours before it will be deleted automatically. This function applies only for pre recorded Prayers which are Prayer Schedule and Deeper in Prayer both are submenus under Rhema Prayer Plan .**

7- **Kindly Consider adding inbox or notification area under account and settings**

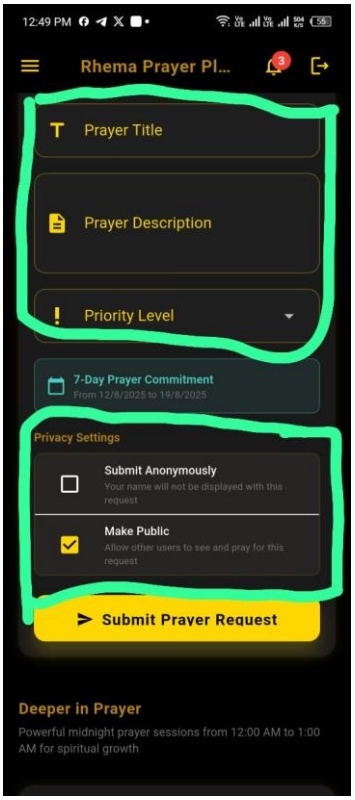


8- **Under the Rhema Prayer Plan, check the Submenu prayer schedule, kindly add an area to display the pre-recorded audio prayer every 6 hours interval , you already got the timing right, we just need to add an area that displays the prerecorded audio and also the out applies for the deeper in prayer too.**

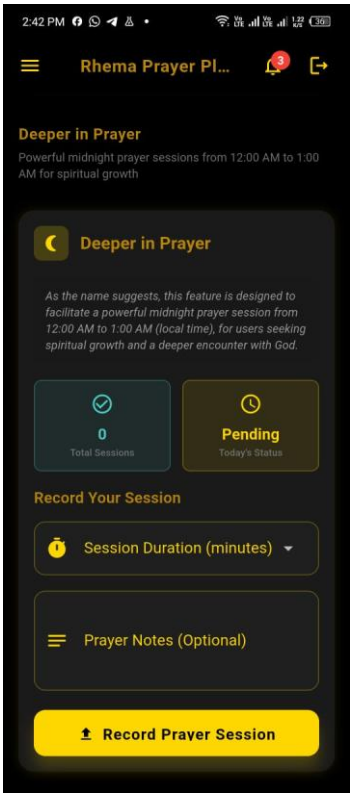


9- **Under the Rhema Prayer Plan, check the Submenu where we have the area for Request Prayer session, can u add these to the list - Praise, Mercy, .**

- **Under Request Prayer Session please remove the area you added which is prayer Details, prayer description, priority level and privacy settings .You can leave the calendar where u have the 7 day commitment, the reason I'm advising we delete is this , imagine a situation we get 500 request daily how do we attend to all. Instead I would advice the moment any of the prayer category is clicked let's say for example Healing, automatically the user gets a notification message with prayer points, bible verse and a short audio prayer of Rev Julian Sealing the prayer. this way I feel we can be able to serve the large audience we are expecting to use this app.**



10- Under the Rhema Prayer Plan, check the Submenu Deeper in Prayer, pls deeper in prayer is similar to Prayer Schedule, the difference is deeper in prayer is much longer than prayer schedule and also deeper in prayer happens during midnight. we should only have session duration which is 30min - 60min and area to display the pre-recorded audio prayer



BIBLE

STUDY CORDER

11- Can you please organize the bible study corner in a structured form for it to look simple just like the table below I feel you should remove the past studies area, instead have calendar of the week like from Monday to Sunday where we can have pre saved bible study on the app with the below format structure for every new day throughout the week and after that week is over another new set of bible study topic would be uploaded on the app from the backend

Bible Study Table

This table format can be used to populate the Bible Study structure in your app.

Memory Verse	Input Field / Description
Topic of the Day	Enter or select the main theme for today's Bible study.

Scripture of the Day	Enter or paste the Bible verse or passage. Example:
Devotional Summary	Write a short devotional or explanation (2–3 paragraphs).
Group Discussion Questions	Add 2–3 reflective or discussion questions based on the scripture.

12- I will get apk for different bible translation that would be updated on the app.

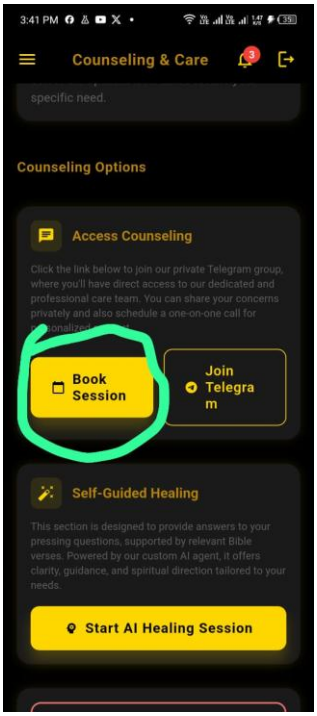
SALVATION CORNER

13- Can you kindly redesign this area, I like the drop down idea. Can you add inside the drop down, Give My life to Christ, Rededicate My Life to Christ and Testimony. When ever a user clicks on the drop down on either Give My life to Christ, Rededicate My Life to Chris they should have a form to fill and once they fill the form and submit, they should receive a message directing them to check notification Area, they will receive an automated audio prayer in their notification of Rev Julian Kyula Leading them to Christ this concept is for Give My life to Christ and Rededicate My Life to Christ.

For Testimony, once they click on it they can find a form to fill and submit their testimony and also find slides of people who have submitted their testimony in the past

COUNSELING AND CARE

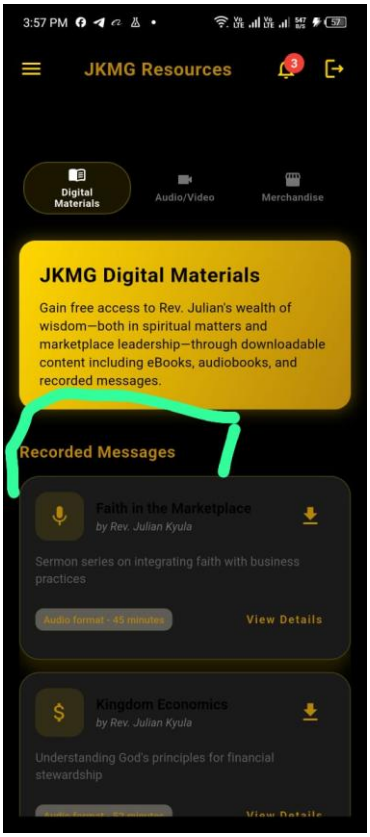
14- Please the area I have circled green below can u remover reason is because we might so many user's we might not be able to attend too, kindly urge them to join our telegram community where they can book a session with any of our councilors there.



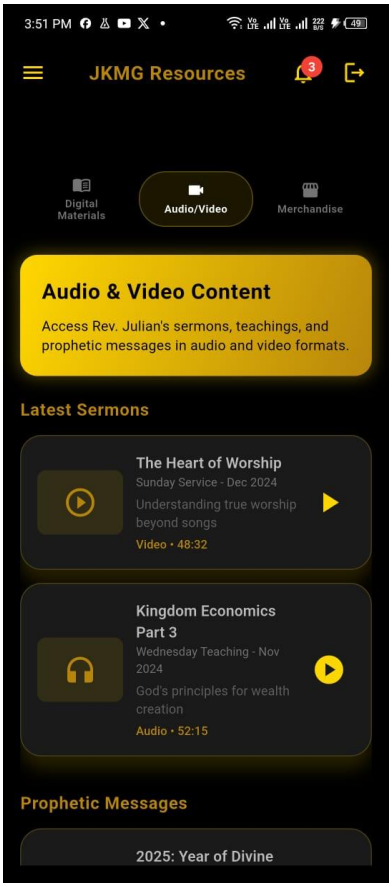
JKMG

RESOURCES

15- Please remove the circled area entirely since we already have an dedicated area to audio messages which I am mentioning below.



16- Please the area below kindly edit it, it should only be audio versions of Rev Julian's Message, sermons and teachings not video write this instead : (Access Rev Julian Kyula's Teaching's Sermons, and Prophetic Messages in Audio formats) also there is no need to have prophetic Messages or Latest sermons.. classify everything as one, Sermons or Messages, also include an area we can add date inside the topics of the sermons . thanks



EVENTS AND ANNOUNCEMENT

17- Pls under this menu check for JKMG BUSINESS FORUM pls remove the 7D written in front of JKMG BUSINESS FORUM also kindly change the faith driven Entrepreneurship to kingdom-based Entrepreneurship
